

1st Annual Hunter Lens Golf Tournament

Benefitting Prader-Willi Syndrome Association (USA)

Hunter's Story

Hunter is 11 years old and has Prader-Willi syndrome. He leads a happy, active life despite his daily challenges. He has friends, a loving family and his weight is under control. Supporting PWSA (USA), a non-profit, will open more doors for Hunter and others who live with PWS, which ultimately means a better life. Hunter deserves a better life. Please join us on this special day in honor of Hunter.

Prader-Willi syndrome (PWS) is a rare, life-long, non-inherited, genetic disorder. It is the most common known genetic cause of life-threatening obesity. Currently, there is no cure, but early diagnosis and intervention saves lives.
